

## **Women's Health Act**

The Women's Health and Cancer Rights Act of 1998 (Women's Health Act) includes protections for patients who elect to have breast reconstruction in connection with a mastectomy. The law requires that certain coverage be provided, and that notice be given to Covered Persons regarding coverage for this care under the Group health Plan. The Women's Health Act requires that:

A Group health Plan which provides medical and surgical benefits for mastectomies shall also provide, in the case of a Covered Person who is receiving benefits in connection with a mastectomy and elects breast reconstruction in connection with such mastectomy, coverage in a manner determined in consultation with the attending Physician and patient for:

- reconstruction of the breast on which the mastectomy has been performed;
- surgery and reconstruction of the other breast to produce a symmetrical appearance;
- prostheses; and
- physical complications resulting from all stages of the mastectomy (including lymphedemas).

This Group health Plan is in compliance with the Women's Health Act, and provides benefits as required by the Act, subject to the Deductible, Copay and Coinsurance amounts applicable to other benefits under the Plan.
