

Getting started with online mental health care:

Your guide to success

Taking the first step towards mental health care is a significant and courageous decision. Here's what to expect from telepsychiatry services.

You have access to mental health care through secure video appointments, so you can get professional mental health support from the comfort of your home. It includes consultations, therapy sessions, medication management and follow-up care.

➔ PREPARING FOR YOUR FIRST VISIT

Setting up your space:

- Find a quiet, private space where you won't be interrupted
- Use a phone, tablet or computer with a reliable internet connection
- We'll send you a secure video link by text before your appointment
- Test your device's camera and microphone ahead of time

Have ready

- List of current medications and dosages
- Brief notes about what you'd like to discuss
- Any questions you'd like to ask

➔ YOUR FIRST APPOINTMENT (60 MIN)

During this important first step, your provider will:

- Complete a structured, information gathering clinical assessment
- Learn about your mental health concerns, experiences and current needs
- Help identify your personal goals for care
- Answer any questions you have

Before ending this visit, your provider will:

- Schedule your next appointment
- Make sure you know your next steps
- Provide you with any resources you need

YOUR PERSONALIZED CARE JOURNEY

➔ ONGOING CARE

Your care plan

Based on your first visit, your provider will:

- Create a personalized plan that fits your needs
- Recommend the type of care that's right for you
- Connect you with the right specialist, if needed
- Explain all your options clearly

Follow-up sessions (30 - 60 minutes):

- Regular check-ins with your provider
- Work on strategies that help you feel better
- Track your progress
- Adjust your care plan as needed

Working together:

- Build a trusted relationship with your provider
- Learn practical coping skills
- Celebrate your progress
- Get support when you need it

Privacy and support:

- All sessions are completely private and secure
- Your information is protected; sessions are not recorded
